

ACCELERATE

Leading Change

A 3-Day Leading Change Bootcamp!

"People don't resist change. They resist being changed!" – Peter Senge

Overview of Program

This highly experiential program focuses on how to identify and use your influencing style to lead change in your organization. Come ready to learn how to deploy change tactics in ways that will truly accelerate change and change adoption.

- Learn about your own personal change preferences
- Apply the change process involving influence & execution
- Learn your role when dealing with ambiguity
- Experience a computer-based simulation that teaches you the steps of leading change

Objectives:

- Understand how to react to change and ambiguity
- Prepare for change by understanding change theory
- Learn about your influence style preferences (ISI assessment)
- Learn steps to implement change in any organization
- Learn and practice change in a live simulation

Participant Profile

- Managers with 5 years experience or New Managers
- Young Professionals who want to lead change through organization
- Fast growing or Established companies that care about leading change
